

## THE ULTIMATE AND MOST COST-EFFECTIVE ATM PROTECTION SYSTEM **ANTI-RAM RAID ANCHOR (ARRA)**

The Loktec Anti – Ram Raid Anchor (ARRA) is the **ULTIMATE** and most cost-effective protection solution designed to stop ram raid attackers removing ATMs.

Designed, manufactured and installed by Loktec to provide an affordable solution that can be rapidly deployed and installed as a retro fit or new installation solution.

Offering a visual and physical protection system readily available for all makes and models of ATMs. The ARRA boasts a unique cover boot system and tamper proof patented design, finished as standard in high visibility Red (RAL 3020, traffic red), or if desired, in any other standard RAL colour.
