

Loktec

Protecting ATM's since 2003

ATM Anti - Ram Raid Anchor

THE ULTIMATE AND MOST COST-EFFECTIVE ATM PROTECTION SYSTEM AVAILABLE

The Loktec Anti-Ram Raid ATM Anchor (ARRA) is the ULTIMATE and most cost-effective protection solution designed to stop ram raid attackers removing ATM,s by offering a visual and physical protection system readily available for all makes and models of ATM's. The ATM anchor is designed, manufactured and installed by Loktec to provide an affordable solution that can be rapidly deployed and installed as a retro fit or new installation solution. The ATM anchor boasts a unique cover boot system and tamper proof patented design, finished as standard in high visibility Red (RAL 3020, traffic red), or any other standard RAL colour.

TESTING & CERTIFICATION

Our Anti - Ram Raid products are tested independently to resist attacks exceeding 354 Kn of dynamic impact force using large plant such as JCB and 4×4 vehicle pull out methods. The ATM anchor is successfully deployed by UK & Global Banks, Independent ATM deployers, ATM manufacturers and Global distributors.

KEY POINTS
